

MISSING™

Detective's Notebook

Dear Recruit:

I'm so glad you've been assigned to help me out.

We've just had a call from a worried father, Ted. He has found some strange files on the family computer. The files suggest that his son, Zack, is hanging around in chat rooms with a kid named Fantasma. Ted is afraid they are getting into trouble.

I want you to review the evidence in the files. Record any clues in this Notebook.

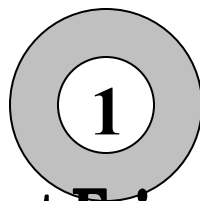

Some of the evidence is from Zack's own website. Zack has sealed this website with passwords. To find each password you will have to win a game that Zack has designed.

Both Zack and Fantasma have hidden information behind puzzles called cryptograms. These can be very tricky to solve, so remember to click on the Hint button.

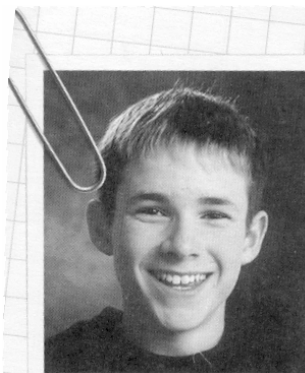

I'll drop by from time to time to help you out. Good luck!

Sincerely,

Sgt. Michelle Belaire
