

WEB WISE KID'S INTERNET SURVEY #2

After playing the **MISSING Game**, please complete the following survey as honestly and truthfully as you can. If you want your identity to remain confidential, do **not** put your name at the top.
For each question, you may choose more than one correct answer.

A. ABOUT ME

1. **After playing the MISSING Game, I think that Zach is:**

- A smart kid who spent too much time on his computer
- A lonely kid who ignored danger to make friends with Fantasma
- A regular kid who didn't realize how dangerous strangers on the Internet can be

2. **Now that I have played the MISSING Game, I will:**

- Spend less time on the Internet
- Not reveal any of my personal information to strangers in chat rooms
- Ignore Instant Messages from strangers
- Watch out for people online who say things like Fantasma said
- Tell my parents if I discover something suspicious online
- Tell an adult if someone I meet online wants to call me or meet me in person
- Ask my family to get an Internet filter at home to block a lot of (not all) dangerous stuff from my computer

3. **The MISSING Game helped me understand:**

- there are people online who want to harm children
- there are things on the Internet that are illegal, dangerous, and not intended for children
- there are people on the Internet who aren't really who they say they are
- I need to protect myself from strangers online

4. **Which of the following things will I do to make sure that I stay safe when using the Internet:**

- Remember to keep all my personal information private when using the Internet
- Remember that people I meet online are strangers who may not be telling me the truth
- Remember that I can tell my parents or teachers if something on the Internet seems unsafe

B. ABOUT THE INTERNET

5. In the pre-game survey, you were asked if you have ever done the things on the list below. Look at the list again and this time answer yes or no if you will keep on doing these things.
